Stillwater Crossings Condo Association

Who are we:

Bremer Insurance is an independent insurance agency that has been doing business since the 1940's. We believe strongly in building relationships with our customers as they are our primary concern. Our mission is to find the proper protection for you, your family and your business and give you the peace of mind that comes with knowing you are properly protected.

Stillwater Crossings Condo Association

Building Coverage:

This policy provides building coverage for 142 units with an overall policy value of \$46,900,700. The policy carries a deductible of \$50,000 "per occurrence" and a \$50,000 "per building" for wind/hail claims.

[Review the Stillwater Crossings Condo Association declarations/by laws for specific details](#)

Liability Coverage:

This policy contains a \$1,000,000 limit of liability applying "per occurrence" for bodily injury and property damage and a \$2,000,000 "aggregate" limit. It also carries a \$5,000,000 Umbrella over the above noted general limits.

Unit Owners Insurance:

The Association policy does not provide insurance for any of the personal items of the unit owner or liability of the unit owner. All unit owners should be required to carry a separate policy called a Condominium Unit Owners policy (HO-6). This policy should carry enough coverage to cover his or her personal property, the association deductible, cost of any improvements or betterments and personal liability.

Bremer Insurance Agencies would be happy to work with the unit owners to obtain an HO-6 policy and build that policy with coverages to fill gaps of the Association's Master Policy. If your existing HO-6 Agent or Mortgage Holder needs assistance or proof of Master Policy Insurance, please provide them the Client Manager's contact information (below) and we will be happy to direct them to our Personal Lines specialists to work with them direct.

Products and services offered through Bremer Insurance are not insured by the FDIC or any Federal Government Agency, are not a deposit or other obligation of, or guaranteed by, the depository institution, and are subject to investment risks including possible loss of the principal amount invested.
